

## DIGITAL EMPOWERMENT FOR WOMEN

The MiA courses are for women with a refugee or migration background, who are older than 16 years and who have so far had no or only little integration chances.

The course is interest based, depending on the needs of the participants. We plan to teach basic computer and digital literacy skills e.g. learning how to type, how to create an e-mail account, how to write e-mails, how to communicate with institutions such as „Job Center“ and Immigration offices, how to surf safely in the internet, how to participate in online meetings.

In addition, the participants will improve their language skills, find new social contacts, gather information on counselling services in Kiel, get ideas about voluntary and professional activities, become generally acquainted with Kiel.

The duration of each course is 34 hours. The course is funded by the *Federal Office for Migration and Refugees*.
